SUBJECT.

Establishing a municipality at Mudigere

Indexed

W D 83—GPB—50,000—24-7-16

Memo The Collector, Kadiri
dated 11th August
recommends the Establishment
of a Municipality at
Mudegere

From the Vernacular
Papers now submitted it
would appear that the
inhabitants of the town
of Mudegere had themselves
appointed a Sweeper on Rs 4
per mensem to keep the
town clean, but this
arrangement did not work
well as the Sweeper was
not regularly paid. The
Amildar at first proposed
that two Sweepers may
be entertained for the
town at the expense of
other well-to-do Municipal
-ities in the district the Collector
considered this objectionable and,
during the last Jamabandy
considered the Establishment
of a Municipality at
Mudegere to be necessary
to keep it clean and
called upon the Amildar
to submit a statement
shewing the number of
houses and inhabitants
in the town the Ushtaffa
Receipts

Receipts and the Revenue
that might be realized
by introducing Octroi on
important articles of
consumption. The Amildar's
reply shews that the
town contains 246 houses with
810 inhabitants, that the
local residents are in favor
of the Establishment of the
Municipality while those
that frequent the town for
trading purposes object to
it probably because they
might suffer by the introduction
of octroi and that the
place where the weekly fare
'Santhay' is held every
Sunday is on a higher
level than that of the
Pettah and Taluk Cutcherry.
For the proper conservancy
of this Site on which to some
extent depends the
health of the town, the
Amildar recommends
the levy of a small rate
viz 3 pies from every keeper
of a Shop in the 'Santhay'
and states that
such a rate
'experimentally levied
under his orders
during

during the Santhang on 1st March 1885, yielded Rs 1-0-6 and that he has directed the sum to be held in deposit

The probable Receipts available for Municipal purposes are estimated at Rs 864 per annum as shewn hereunder.

1. The Expenditure proposed to be incurred is estimated by the Amildar to amount to Rs 529 as noted in the margin

The levy of Octroi in minor towns being objectionable the proposed Municipality at Mudegeri will have to be maintained by the Society of Govt Mohtarfa the collections from Cattle Pounds, sale of Manure &c. and the Revenue to be realized from the proposed levy of a small tax on hops at the weekly Santhay in the town. Should this proposal meet with the approval of the Govt. To begin with, the probable amount of Revenue, (exclusive of octroi) available for Municipal purposes, may be roughly estimated at Rs 350 per annum. The proposed Expenditure will accordingly have to be reduced to;

To. The Secretary to the Dewan
of Mysore.

Sir,

I have the honor to submit for the favorable consideration and orders of Government Canara papers, ending with the Amildar Tilla No. 2176 of the 2d instant, on the subject of the town of Mundgod being added to the list of Municipalities. 2. Ever since the formation of the Taluk Head Quarters at that place, the town has been steadily rising in importance. The unhealthiness of the climate is, no doubt, aggravated by the want of suitable arrangements for enforcing the rules of sanitation. It will be seen from the

Enclosed extract of Mr Lacey's letter No 582 of the 28th October 1879 to the address of the Commissioner, Nagar Division, that the subject of the formation of a board for this place was once under contemplation as far back as 1879, and the real want has not yet been supplied. The principal inhabitants of the town are desirous of its being formed into a Municipality. The Auxiliar first proposed the employment of two sweepers at the least, the cost being debited to any one of the Municipalities in the District proper. This, I think I, is not only inadequate arrangement but a measure in the enforcement of which none of the Municipalities may agree.

3 The accompanying statement

will show the sources of annual income which is estimated at Rs 864 deducting the moiety to be credited to the Provincial Fund, and may be sufficient for the purpose in view.

4. Regular detailed estimates of receipts and disbursements for the year 1885-86 will be submitted on sanction being accorded to the establishment of this much needed Municipality

I have the honor to be,

Sir,

2. In reply I beg to state that for the pre
:sent I would propose that only the towns of
Mudgéré and Kurihuspur, which are the he
quarters of the Mudgerri and Koppa Ta =
luks respectively, be added to the list of
Municipal towns - As regards other town
I would prefer to wait until I have had
an opportunity of inspecting them during
the coming jamabandy and ascertained
the wishes of the inhabitants and enquire
into the resources of each town -

3. IV But in the case of Midapúr and Hari-
-harpúr, Municipal committees are real
wants, and if the formation of boards at
these two places be approved of by the Chief Com-
-missioner I shall take the necessary steps
for their establishment –

I have the honorable Sir
